PRODUCT LINES

COUPLINGS & PINTLE HITCHES

Choose from a full range of Couplings / Pintle Hitches that will best suit the requirements of your application. We manufacture light, medium and heavy duty components.

DRAWBAR EYES

A complete offering of induction hardened drawbar eyes provide unsurpassed wear resistance in many bolt on, weld on and swivel mounted applications.

JACKS

These jacks are as unique as the rest of our product offerings and they are customizable to your specific application. Please see our Jack Selection Guide for more detailed information and specifications.

FRONT END HOUSINGS

Our front end housings are designed to complement our swivel drawbar eye offerings by providing an easy to install, secure attachment to various front end shapes.

HINGE ASSEMBLIES

All of our hinge assemblies provide for adjustment at the pivot point, which allows for application specific resistance to be set easily as well as take up for any bushing wear that occurs over the years.

ACCESSORIES

Parts kits, wear gages, drawbar guides & safety chain attachment points are just a few of the genuine Premier accessories that are specifically designed to provide you with easy to use, process improvement, peace of mind components.
